

INTRODUCTION

This Comic-book was produced by young people from Europe, at the youth exchange called "ARTALOGUE", organized by the association CultArtRocks together with "Fla-Kultur Association" from France, "Pro-mayo" from Belgium, "GlobalVisionCircle" from Bulgaria, "YCDC" from Lithuania, "Namsos Kommune" from Norway and "La Vibria" from Spain.

This youth exchange took place from 19.-28.7.2008 in Obernberg/Brenner in Austria under the general topic "comics and hip-hop about Human rights".

The basic idea was to work on the possibilities of intercultural dialogue through arts and - in this case - through comic drawing and hip-hop dancing. The workshops were led by professionals (comic workshop - Bettina Egger, hip-hop dancing - Stephanie Schuster, human rights discussions - Marie-Luise Nowak).

At the end, every participant from the 7 participant countries presented a short comic about Human rights. Therefore, there is a big diversity of styles and ideas in this "European comic book".

Wish you a lot of fun with this compilation,

Bettina Egger

RIGHTS DISCUSSION

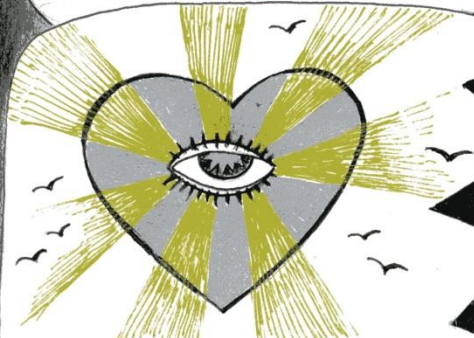

In the beginning of the 21st century the planet **EARTH** is rising above an ocean of blood sheaded during its history

It is becoming more and more common to talk about **HUMAN RIGHTS**... **BUT**

What does it really mean to be HUMAN? And what is the essence of the HUMAN nature?

Or are they rather creatures of **wisdom** and **reason** taking care of every living form, sensitive for its pain and joy, supporting it on its **OWN** way of **EVOLUTION**?

Are people the smartest animals that have defeated all **other species**, taken away their land, water and air, and finally **eaten their flesh**?

My opinion is that without letting the openness, sensitivity, and gentleness shine inside your heart, all **TALK** about human rights is an **empty noise**

SO what is Your answer to the HUMAN nature question?*
